Hobie Cat USA - Hobie Cat Australasia

Hobie Alter. He Started Out Shaping Surfboards, He Ended Up Shaping A Culture.

Growing up in Laguna Beach during the 1950s, Hobie Alter always knew he wanted to make life fun. But how could he have known that he would someday make a life out of fun? And in the process forever change the way people play in the water.

It all began on a sunny day at Laguna's Main Beach, when a teenaged buddy of Hobie's asked "What are we going to do with our lives?" For Hobie the answer was simple. He looked out onto the waves, dug his toes in the sand and said, "Nothing where we have to wear shoes, or live on the east side of the Pacific Coast Highway."

The solution was born in his parents' garage, when Hobie decided to apply his love of woodworking to the then-fledgling sport of surfing. Dad backed the DeSoto out of the way to make room for a shipment of balsawood, Hobie got out his drawknife and carved out his very first surfboard. Friends soon started dropping by and before you knew it there was no room left for the De Soto—Hobie's business of fun had begun.

Hobie and the sport grew together. A couple of years and 40 tons of sawdust later, Hobie opened up Southern California's first surf shop in Dana Point. Then in 1958 Hobie and buddy Gordon "Grubby" Clark began experimenting with new materials, literally inventing the polyurethane foam surfboard (and blowing up the garage in the process). The new boards were lighter, faster and easier to ride than anything else in the water. Suddenly everyone wanted to be a surfer—and every surfer wanted a Hobie.

By the mid-1960s, while the Beach Boys were making records, the legendary Hobie Surf Team was setting them. Hobie's lineup was a veritable Who's Who of surfing greats. Phil Edwards, Joey Cabell, Corky Carroll, Mickey Munoz, Joyce Hoffman, Joey Hamasaki, Gary Propper, Billy Hamilton and Herbie Fletcher are just a few of the champions who sported the distinctive Hobie diamond logo over the years.

Hobie's enduring combination of innovation and meticulous attention to detail would continue to attract the world's best surfers and shapers to the label for the next 40 years. But for Hobie Alter, the fun had just begun with surfboards.

In the late 60's Hobie started messing around in boats. With head designer Phil Edwards Hobie developed a prototype for a lightweight, fast and easy-to-sail playboat based on the Polynesian twin-hulled catamaran. History soon repeated itself. What the foam Hobie surfboard did for surfing the Hobie Cat did for sailing,

introducing a whole new way to have fun in the sun and revolutionizing the industry in the process. In the past three and a half decades more people have taken to the water on a Hobie Cat than almost any other sailboat design. The Hobie 14, 16, 17, 18 and 20 foot models are still the world's best selling cats and it's hard to find a body of water on any continent that doesn't have an active Hobie fleet.

In the years to follow plenty of other ocean innovations emerged from Hobie's fertile imagination: the handy Hobie Power Skiff, a frisky 33' monohull sailer, a 60' ocean voyaging power cat and innovative fishing floats. Life out of the water wasn't ignored, either. Hobie's logo has meant the very best in everything from radio-controlled gliders and skateboards to his world-famous polarized sunglasses and sportswear.

If you use it in or around the water, it seems, Hobie has made it and made it better. The perfect example is Hobie's new line of touring and fishing kayaks, whose innovative foot-pedal Mirage Drive represents the first major design change in over 300 years!

It seems incredible that one man's vision could provide so much fun for watermen and women the world over, but in that department Hobie Alter stands alone. Hobie didn't just create toys, he created a way of life, a whole new way of looking at our watery world. The dream born on the beach 56 years ago has become reality not just for Hobie but for new generations of dreamers, all of whom continue to spell fun in the sun, the surf and the sand with a flying capital

HOBIE SUNGLASSES Hobie® Polarized Sunglasses are designed to improve your vision by eliminating glare, a problem that has been around since the first sunrise. Once you wear Hobie sunglasses you will never want to be without them! By cutting all glare, our sunglasses make it easier to see the wind on the water, the fish in the water and any obstacles in your way. When you put on Hobies it's like a vacation for your eyes! See the complete line of Hobie Sunglasses at hobiepolarized.com

SERIES/MOTION Essential Hobie. Made of rugged injected TR-90 nylon and featuring Lightweight Polycarbonate Hydroreflective polarized Lenses, the Motion Series is ideally suited to meet the challenges of active sports as well as everyday wear. This series was designed for demanding sports enthusiasts who are unwilling to compromise on either function or style. Both models we offer here are Matte black with Polycarbonate gray lens. Very light weight.

HOBIE

ROLLING DUFFEL BAG Huge, large enough for all of your clothes, sailing gear and then some. This heavy-duty nylon Cordura® bag has a parallel dual zipper top opening that allows plenty of space to stuff things into it. Separate compartment on one end is vented for anything that's wet and a side pocket. Rollers on one end help you get there fast without having to carry the bag. Hard bottom and rubber skids to reduce wear. Telescoping handle. 32" x 12" x 14". Color as shown.

80000R HOBIE ROLLING DUFFEL

Telescoping handle. 32" x 12" x 14". Retracts into zippered pocket.

Separate zippered compartment on one end is vented.

HOBIE BACK PACK Carry your gear with pride! The Hobie Back Pack can fit a bunch of your sailing gear or *EVEN* books if it has to. 3 zippered compartments. Padded back support and straps. Waist strap and shoulder strap / chest buckle.

80000B Back Pack

GUSSETED TRAMP

BAG Do you carry too many small things for a pouch but not enough for a storage bag?

We've got the tramp bag for you. Our 6" by 12" gusseted tramp bag rises to the occasion. It has hooks on both ends to clip

to the tramp lacing and carries the Hobie logo. Also available in 8" x 12" size.

72000B 6"x12" GUSSETED TRAMP BAG

72005B 8"x12" GUSSETED TRAMP BAG

TRAMPOLINE STORAGE BAG The Trampoline Storage Bag is designed to store loose items you want to carry on your catamaran. Low profile to eliminate line hang-ups. Designed to attach between the hiking straps. One compartment (18" x 36"). Includes a clear plastic map pocket. (Built of tough Cordura fabric, not waterproof.)

3128 With Map Pocket

SEE BAG Transparent 13 oz. vinyl bags make quick work of locating things. Great for organizing gear and personal stuff. Keep your food and spare clothes dry.

Two sizes: #10 - 8" diameter by 14" high, 622 cu.in.

#30 - 11" diameter by 19" high, 2200 cu.in.

Easy to carry or tie on trampoline. Its cylindrical shape will hold odd shapes such as cameras, binoculars, lunches, etc. without distortion of bag and resultant potential leakage.

72210T SEE BAG (8" x 14")

72230T SEE BAG (11" x 19")

HATCH COVER KITS Provides access to the hull for storage and inspection. All sizes have screw-in covers. The 4" and 5" diameter covers are contoured to fit curved decks. The 6" is flat and can be used to replace the pop out covers on the Hobie 18. Kits include one pair of hatch covers, bedding material and mounting hardware.

5352W 4" Kit-White

5352B 4" Kit-Black

5351W 5" Kit-White

5351B 5" Kit-Black

5353W* 6" Kit-White

5353B* 6" Kit-Black

* Use 5403 or 5413 with 6" screw-in kit.

HATCH ONLY (COVER W/FLANGE)

V1130 4" White

V1131 4" Black

V1093 5" White

V1100 5" Black

V1145 6" White

V1146 6" Black

376 Silicone Sealant (RTV) 3oz

TECH TIP!

HATCH COVER KITS The small, 4" diameter, covers are hand sized and are often used behind the rear crossbar for access to the transom. The 5" diameter hatch covers are about the maximum size that the Hobie 14 and 16 foredeck can handle. The 6" access port kit is now a screw-in port, just like the 4" and 5". Prior to 1989, Hobie Cat used a pop-in port on the Hobie 18. Water would seep into the hulls through the rope-handle holes. Replacement with the screw-in ports eliminates that condition.

HOBIE DRY BAG New Hobie Dry Bag 8" diameter x 14". Now a standard feature in all Hobie Kayaks, this new dry bag is built of tough materials. Seals tight to keep your stuff dry.

71703001 8" Hobie Dry Bag

8" TWIST-N-SEAL HATCH

6" TWIST-N-SEAL HATCH

HOBIE TWIST-N-SEAL HATCHES

These new Hobie hatches are designed to have a better seal. The lids also hinge open so you never lose the lid. Designed with a cork-screw-like mechanism, a simple twist of the handle opens or closes the hatch. As the screw pulls down the hatch, you get a tight seal on the "O Ring" seal. Flip the handle into the recess to "lock" it closed. Available in 6" and 8" diameters. These hatches are now standard equipment on all Hobie Kayaks.

71701 6" Twist-n-seal hatch

71702 8" Twist-n-seal hatch

HOBIE HATCH BAG Add a drop-in bag to the new 6" Hobie Twist-n-seal hatch. Kit includes back-up ring with lip, screws and bag with drawstring.

5421 6" Hobie Bag Kit

HATCH BAGS Water repellent, durable nylon hatch bags provide secure storage of your wallet, keys, tools, etc. while sailing. Designed to work with screw-in lid type hatches with lip (Kit #5351B-5353W and hatch #V1093-V1146). Simply drop in and they hang from the lip of the hatch cover ring. Available in two styles: the cat bag is a standard cylindrical shape and the fat bag expands to the shape of an inverted hot air balloon.

5502 H18 Fat Bag Kit

5506 (1989 & Later) H18 Fat Bag Kit

HOBIE CAT SAILING GLOVES protect your hands while increasing your grip strength. You must wear gloves to properly control the main and jib sheet. Sliding a line through your bare hands is no fun. Gloves add grip strength against the lines which can ease up on the amount of force you need to exert when sheeting the lines back in. Available in small, medium, large & extra-large. (xx = size)

3188XX HOBIE GLOVE

TECH TIP!

SAILING GLOVES Get a good grip on your lines. Sailing gloves absorb and distribute the sheet rope load, as well as protect your skin from wear and tear. Lower cost gloves are fine for the casual sailor. The more rigorous the sailing conditions the more a higher quality glove is required. Our high end gloves are double thickness leather in high wear areas, padded to spread out the squeeze load on your hand and reasonably easy to get on and off.

THUNDERWEAR PADDED SAILING GLOVES FINGERLESS DESIGN. All Spandex backs and reinforced Amara grip pads over Amara palms and fingers. The reinforcements have foam inserts to absorb and distribute the loads when "pumping" the sheet ropes. Available in extra-small, small, medium, large & extra-large. (xx = size)

3185XX Gloves

THUNDERWEAR PADDED SAILING GLOVES THREE FINGER DESIGN offers more protection for 3 fingers yet leaves your forefinger and thumb exposed to handle small objects. All Spandex backs and reinforced Amara grip pads over Amara palms and fingers. The reinforcements have foam inserts to absorb and distribute the loads when "pumping" the sheet ropes. Available in extra-small, small, medium, large & extra-large. (xx = size)

3186XX 3 Full Fingers

THUNDERWEAR COLD WEATHER SAILING GLOVES Full fingered glove for watersports. Made of Neoprene and Thunderhide, an amazing synthetic leather that is completely wetttable and washable. Keeps your hands warm. These gloves run large and are men's sizes. Available in extra-extra small, extra-small, small, medium, large & extra-large. (xx = size)

3187XX Gloves

HOBIE SAILING WEAR!

SAILING WEAR

Sailing gear built by and for Hobie sailors! Spray Jacket (left) is a pull over with storage pockets on the front. Built with a waterproof breathable fabric, neoprene cuffs and neck seals. Lycra Shirt (center) can be worn under a wetsuit for chafe protection or as a "cover all" shirt on the outside to hold in any loose straps and buckles that might catch on lines and hardware. The Full Suit (right) has neoprene cuffs, collar and is semi-dry. The top incorporates a breathable fabric. The bottom has Codura wear resistant patches on the seat.

3845XX Spray Top / Semi Dry (xx = sm/md/lg/xl size)

3846XX Lycra Top - Black (xx = lg/xl size)

3847XX Full Spray Suit / Semi Dry (xx = sm or md size only*)

Colors may vary on all items (* Limited to stock on hand)

HOBIE SHORT-PROFILE VEST by Stohlquist

This side entry design has set the standard for streamlined pfd fit. Cool mesh side panels and reflective accents. Stretchy neoprene adjustable padded shoulders. Roomy mesh pocket with "D" ring for keys. Ventilated mesh side panels. High waistline cut. Huge arm cutouts and a short waist allow excellent freedom of movement. Extra short length allows easy access to trapeze hook while sitting and does not "ride up" around your neck. Adjustable side straps offer enough size variation for many layers underneath or none! SM / MD / LG / XL / XXL (Mango Yellow)

S6142XX (xx = size)

HOBIE HI-BACK MESH by Stohlquist

This **ALL-NEW** front entry vest was designed just for Hobie. The floatation in the back is up high and away from the harness for less bulk down low. There is a mesh panel across the back. Front zip entry for easy on and off. A zipper keeper to prevent the zipper from slipping down when in use. Large mesh pockets on the front for easy storage and access of small items. Stretchy neoprene adjustable padded shoulders. Ventilated mesh side panels. High waistline cut. Huge arm cutouts and a short waist allow excellent freedom of movement. Short length allows easy access to trapeze hook while sitting and does not "ride up" around your neck. Adjustable side straps offer enough size variation for many layers underneath or none! STEARNS CHILD/YOUTH VESTS

Our children's life vests meet the same functional requirements as those for adults. We've selected the, easier to put on, three clip model. These are easy to adjust for different size crews. (Vest color varies, yellow or red)

SBV3120YEL 30 to 50 lbs

SBV3122YEL 50 to 90 lbs

SAFETY TIP!

LIFE VESTS Get a good, comfortable life vest and WEAR IT! A life vest does you little good stored on your boat, especially if you get tossed into the water and away from your boat. Accidents happen and by their nature, they happen when you are not prepared. A life vest can keep you afloat until you can rescue yourself or you can be rescued by others. In the worst cases when injuries or cold water are involved, your life vest can make all the difference! Be sure everyone onboard your boat wears a life vest too! Pass the word! Federal law now requires that all persons below the age of 13 must wear a life jacket while aboard a boat.

FULL "AUTO" HARNESS For those looking for added back support and comfort while on the trapeze. Great for spending lots of time on the wire. New spreader ratcheting feature allows easy adjustment of harness around hips as well as quick release feature to get out of harness quickly. Crotchless design with neoprene leg straps, adjustable lumbar support, neoprene covers over side buckles, and reinforced patch on the seat. Comes with 10" stainless spreader bar that can only be used with this harness. Colors may vary.

1376XX FULL "AUTO" HARNESS (xx = size) (SM,MD,LG,XL)

CONVERTIBLE HARNESS "Converts" easily from a half harness to full harness with the addition of shoulder straps (included). The all around harness for both racers and recreational sailors where comfort, support and mobility are key. For the recreational sailor the half harness has enough back

support to keep you comfortable on the tramp or the trap. For the racer, just add the shoulder straps for those long days out on the trapeze where extra back support is needed. Extra stiff back support, padded leg straps / shoulder straps, neoprene covers over buckles and a 10" stainless spreader bar. It all adds up to keeping you comfortable and having fun on the water. Shoulder straps included with harness. Colors may vary.

1378XX CONVERTIBLE HARNESS

(xx = size) SM [Small/Medium], LG, XL)

SKIPPER'S HARNESS The harness for both racers and recreational sailors where comfort and mobility on the trampoline are most important. For the sailor who spends less time on the trapeze or prefers to "sit up" rather than lean out more. Unique leg strap design combining neoprene and webbing to eliminate chafe. Neoprene covers over side buckles and a 10" stainless spreader bar. Reinforced seat. Colors may vary.

1388XX SKIPPER'S HARNESS

(xx = size) (SM, MD, LG, XL)

SPREADER HOOK 10" wide black painted, stainless steel hook spreads the load on the waist straps of any harness. The waist or hip straps pull forward to the wide spreader rather than inward.

13825

STANDARD BUCKLE Standard one piece buckle.

13820

COATED TRAP WIRE SETS Highest quality aircraft stainless wire coated with UV tolerant black or white vinyl coating for all of our wire products. Molded nylon handles are installed at the right place for easy in and out maneuvering. Also available in kits which include the trapeze shock cord.

- 1471W** H16,17,SPORT Pair-White
- 1472W** Above w/ Shockcord (16 only)
- 1471B** H16,17,SPORT Pair-Black
- 1472B** Above w/ Shockcord (16 only)
- 1473W** H18 Pr (1 side)-White
- 1474W** Above w/ Shockcords
- 1473B** H18 Pair (1 side)-Black
- 1474B** Above w/ Shockcords
- 1475B** H14 Pair-Black
- 1476B** Above w/ Shockcord
- 1478B** Getaway Pair-Black

WAVE / GETAWAY TRAPEZE KITS Add a trapeze system to your Hobie Wave or Getaway. Complete with wires (pr), return bungee system, lines, blocks, locks and dog bones. Just add a trapeze harness and you are flying! Wave kit includes adjustment lines with internal shockcords and hull attachment hardware.

- 38140001 WAVE TRAPEZE KIT**
- 37140001 GETAWAY TRAPEZE KIT**

MOLDED TRAPEZE HANDLE Strong and comfortable molded grips are contoured to fit the hand. Wire guide shank keeps wire from cutting between the fingers. This is the "standard" handle on all wires.

2011 Each

REPLACEABLE TRAPEZE HANDLE This simple, rubber padded, all aluminum handle can be installed on any 3/32" wire without disconnecting anything. Just screw the 2 halves together and it's ready to use.

2010 Each

TRAPEZE DOGBONES

These dogbones feature high grade 316 stainless steel with welded construction for superior strength.

- 2001** Standard
- 2002** Keyhole Shape
- 2003** Flexible Dogbone

J & H HANDLES Open design combination dogbone/trapeze handle makes getting hooked and unhooked very simple. Choose a different color for the skipper and crew for easy identification.

- 2004BLK** Pair-Black
- 2004WHT** Pair-White

A DELUXE ADJUSTABLE TRAPEZE RIG

The original trap rig. Adjust your position while you are out on the wire. V-Jam pulley system allows you to compensate for that puff or lull in the wind without coming in off the wire. Comes complete with all blocks, ropes, and swivels needed for one pair.

1203 w/o Dogbones

B STANDARD ADJUSTABLE TRAPEZE RIG

The standard kit includes blocks with removable sheaves, rope, rope locks and stop washers. Can be purchased with #2002 dogbones or without dogbones (for possible use with J&H Handles.)

- 3101** w/Dogbones
- 3102** w/o Dogbones

DOUBLE ADJUSTABLE TRAPEZE

Adjust the level of the entire system, ring and handle. Always have the trapeze "T" handle at the proper comfortable to reach level. Crew can move fore and aft to extremes and maintain efficient and comfortable trapezeing level. Bungee gives constant upwards pull on trapeze ring to ensure that you stay hooked up. Stock trapeze wire must be shortened by approx. 8". Order trapeze rings and bungee separately.

- 1204** Kit
- 1205** Handle Assy Replacement

H224 Harken Single Block

HARKEN MICRO FIDDLE BLOCK

Superior quality Micro Fiddle Block with V-Jam cleat from Harken. For use with 7/32" to 5/16" (5mm-8mm) line to make adjustable trapeze system.

H244 Each

REMOVABLE SHEAVE TRAP RIG BLOCK This is the block we include in our basic trap rig kits. No need to cut wires to install this block. Simply remove the clevis pin that acts as the sheave axle, slide the sheave out of the frame, place the frame through the trap wire thimble and reinstall the sheave.

3103 Each

TRAP STAY An easy answer to wandering wires and "who's whose" confusion on the Hobie 16. Mount these little keepers under the side rails and drop the shockcord in. Works great to keep everything in its place.

176 Pair

ROPE LOCK Use on trapeze rope to make your trapeze system adjustable.

61530000 Each

TRAPEZE RIG RETURN SYSTEM Custom system with double-length shockcord reduces the unpleasant forward pull when you're trapped out off the stern on a reach. It also prevents breakage of the shockcord when you stuff a lee bow and the crew takes a spin around the forestay. All required hardware is included.

14709 H16 Kit

FOOT STRAPS / CARRYING HANDLES

Stop that unexpected "JOURNEY TO THE BOW." Add foot straps for the skipper and crew for security on those screaming reaches. Also, just right for lifting the boat instead of dragging it up the beach.

1241 Pair

NON-SKID Low profile, white tape provides excellent foot grip for trapezing. Blends in with standard white hull color to the point it is nearly invisible. Tape is adhesive backed for easy installation.

16713 2" x 20'

TECH TIP!

TRAPEZING While sitting on the edge of the boat, attach the trapeze dogbone to the trapeze hook on your harness. Grab onto the trapeze wire's handle with your forward hand. Place your other hand on the hull behind you. Using your hands for balance ease yourself off the side of the boat and place your forward foot on the rail. Push yourself away from the boat with your rear hand and forward foot till you can place the rear foot on the rail. Stand on the rail of the boat with your weight on the trapeze wire. Keep your forward leg more ridged and aft leg slightly bent. This position will help keep you from falling forward.

While learning to trapeze, beginners should set their trapeze height just at the rail level or slightly above. This will make it easier to get in and out. Keep your legs spread several feet apart for balance. As you get used to the feel of trapezing you can begin to lower your trapeze height and move your legs closer together. Once you become an expert on the trap wire, your proper body position should be parallel to the deck with your feet right next to each other.

RAIL RUG Provides excellent footing when out on the trapeze. Kit includes a high quality grade of carpeting which absorbs less water, keeping weight down and reducing mildew. Also included in each kit; industrial grade contact cement (much better than the hardware store variety), brush and easy to follow instructions. For all catamarans.

1671BLK H14/16-Black

16703 Contact Cement-Pt

NEOPRENE RAIL KITS Provides excellent footing while out on the trapeze and cushions the non-skid areas. Eliminates abrasion on your skin or clothing because it sheds sand. Zero water retention. Made out of 1/8" thick knobby black neoprene. Kit includes industrial grade contact cement, brush, and instructions for easy installation on any boat. Race strips are for hull decks rear of trampoline frame.

16705 H14 Kit

16706 H16 Kit

16707 Race Strips-Pair

16708 H18 Kit

(H18 Die Cut - Shown Above)

EASY RITE Internal shock cord recoils this righting line automatically. Made from 1/2" hollow braid line with internal shockcord. It requires no blocks or shackles. Installs in minutes without tools. Also functions as crew safety line. Our best selling righting system.

30105 H14/16/17

30106 H18/21

30108 H20

EASY UP Favored Hawaiian style righting line system and trapeze safety line. (H14/16 only.) Retracts fully—it's there when you need it and out of the way when you don't. No tools required to install.

30101 H14/16

30102 H18

THE UPRIGHT SOLO RIGHTING SYSTEM The Upright installs easily. No holes to drill, no measurements are needed. Attaches in five minutes to the existing shroud adjusters with a pair of pliers. Racing rules allow carrying the Upright for emergencies, but it may not be used while racing. The Upright is designed for a single reason, to make sailing your small catamaran safer. The 1266 for the *Hobie 20/21 includes Hyfield levers.

1263 H16

1264 H18/20

1265 H17

ANTI PITCH POLE HYDRO FOIL A simple bow plane that attaches to the bow tang bolt. As the bow starts to dive the bow plane's 55 square inches of surface comes in contact with the water and halts the submerging of the bow before the deck goes under water. Easy to install or remove for racing. Makes sailing a lot more fun for the recreational sailor.

30110 H14/16 Pair

RIGHTING BUCKET Simple, easy to carry, and easy to use. Comes complete with no-rot canvas bucket, premeasured line, shoulder pad (not shown) and snap. The righting bucket holds as much as 150 pounds of water to assist your body weight to right your catamaran.

30107 Kit

SHROUD EXTENDER Tension and de-tension shrouds easily for the "perfect" rig for each wind condition. Use in conjunction with "shroud extending" righting systems for complete re-tensioning while out on the water. Requires shrouds be shortened. Check class rules for racing.

10049 Each

ROTATING MAST FLOAT "Hobie Bob" Helps to prevent turtling. Displaces 60 pounds of water to keep the mast from going full turtle (mast straight down), even when there's weight on the upper hull. This streamlined float is bracket mounted for easy removal for racing or trailering. It's bearings allow rotation of the float to act as a wind vane for minimum drag while sailing. This mast float is standard on all Hobie 21 Sport Cruisers. The Hobie mast float will give you the time you need when preparing to right the boat without the worry of going turtle (mast straight down). It also helps prevent damage to your rig and sails that can be caused if the mast head contacts the bottom when capsized.

30113 H21, H20, H18, H17 Fits all cats

MAST FLOAT "Baby Bob" Designed by the Hobie Cat team to offer the safety and security of mast head floatation while limiting the resistance (drag) through the air. The Hobie mast float can give you the time you need to prepare to right

the boat without the worry of going turtle (mast straight down). This also helps prevent damage to your rig and sails that can be caused if the mast comes in contact with the bottom when capsized. This mast float is standard on all Hobie Waves. It is fixed in position to the mast head and rotates with the mast. Displaces 32 pounds of water and measures 1/2 cubic foot in volume. Bracket mounting allows easy removal for racing or trailering.

30115 Wave, H14, H16

MAST FLOAT "Mama Bob" Float (Standard on the Getaway) offers more floatation volume while using the same mounting system. Displaces 59 pounds of water (just under 1 cubic foot in volume). Mama Bob has nearly the same vertical dimension as the Baby, but it is wider. More volume further inhibits a boat from going turtle when capsized in rough and windy conditions.

30119 Getaway

TECH TIP!

RIGHTING YOUR HOBIE On that reach...flying through the air and water then...WHAM!!! Your Hobie Cat has forced you to swim instead of sail. Not really what you had in mind? If you have planned ahead you will be up and sailing again quickly. Whether sailing single handed or with a few friends, righting your boat can be quick and easy...

First, preventing your mast from becoming one with the bottom, or "turtling" is a priority. We at Hobie have designed mast floats to help keep your Hobie Cat from becoming a 'mudhen'. The floats attach to the top of your mast and will prevent the mast tip from sinking.

The next objective will be to get back to sailing! Righting systems vary a bit, but the theory is the same. A line is attached to your Hobie, thrown over the hull in the air and then weight (yours and or your friends) is used to lever the boat back to an upright and sailable position.

After you have checked that everyone is OK, turn your hulls and mast into the wind (see diagram) and uncleat your sails. You and your friend now need to congregate on the hull that is in the water. Grab the righting line, lean away from the trampoline and get as close to the water as you can. Try to stay out of the water. If you don't have enough body weight to right the cat we have the Righting Bucket! Just attach it to the boat, with the hook that is provided, throw over the upper hull and fill the bucket with water! With the bucket strap over your shoulder, lean your weight out from the boat. The bag comes clear of the water and up the cat will come!! Grab the dolphin striker or crossbar as it comes up, climb aboard, sheet in and GO!

Tipping your Hobie over can be a great way to cool off and enjoy the water... try it! It's excellent practice for when you weren't planning to go for a swim but your Hobie decided that you needed to cool off!

JIB KITS

HOBIE 14 TURBO KIT (JIB & FURLER)

Add Turbo power and enjoy the excitement of trapezing from the 14 with the complete Turbo kit (comes complete with trapeze and jib sheeting hardware). A dolphin striker is required for trapezing. If your boat is pre-1983, order the upgrade kit for new length shrouds, chain plates and tramp jib grommets. Order jib separately.

- 80200000** Turbo Kit w/ Hobie Furler
- 80200030** Turbo Kit w/ Harken Furler
- 80200020** Turbo Upgrade Kit (pre-'82)
- 80200010** Dolphin Striker Kit

- 10992511** White Jib
- 10992991** Special Order Color Jib

HOBIE JIB FURLER SYSTEMS Just roll the jib up when you come into the beach or de-power if it gets too windy. Speed, excitement and convenience all rolled into one!

HOBIE 20 FURLER Complete jib furling kit. Uses standard H20 Jib. No jib modification needed. Includes patented Hobie furler drum, forestay, halyard system and all needed hardware and fasteners.

- 48921001** H20 Jib Furling Kit

HOBIE 16 FURLER Available with patented Hobie furler or Harken furler. Order a new furling jib separately or requires a re-cut of the standard jib.

- 8001** W/ Hobie Furler
- 8004** W/ Harken Furler
- 8002** White Furling Jib
- 8003** Special Order Furling Jib

TECH TIP!

ROLLER FURLING JIBS Just roll the jib up when you come into the beach or de-power if it gets too windy. Want to fly a spinnaker? The furling systems work great for easy spinnaker flying. A roller furling jib system can increase the life of your jib by avoiding flogging the jib material while on the beach or between races. Allows you to store the boat without lowering the jib (jib "snorkle" cover suggested). Kits available for the Hobie 20, 17, 16, 14.

HOBIE WAVE JIB KIT Bring your Wave sailing up a level. More sail area equals more speed and performance. The Wave jib accelerates learning and encourages participation of your crew in sailing. Our jib hardware kit comes complete with bow spreader pole, all the nuts, bolts, and blocks required. Order Jib separately.

- 38999001** Wave Jib Hardware Kit
- 38992010** Wave Jib, White
- 38992071** Wave Jib, Turquoise
- 38992007** Wave Jib, Yellow

JIB KIT SPARE PARTS

- 38999021** Bow Spreader Pole Only
- 38120041** Tang for Bow Spreader Pole

HOBIE 17 FURLING JIB (SPORT CONVERSION) Add the Sport roller furling jib and bow spreader pole to your Hobie 17 for extra performance and easy tacking. You'll be faster upwind, reaching, and tacking downwind. No more 16's passing you down wind in light air. Order jib separately.

- 52995610** 17 Sport Jib Hardware Kit (with spreader)
- 52992006** White Jib
- 52992023** Special Order Color Jib

SPORT "BOOMLET" SAIL FOOT When the boom is removed, it is much easier for your passengers and crew to travel from one side of the boat to the other while tacking or jibing. 1995 and newer Hobie 17 "SE" race boats can easily be converted to a "Boomless Sport" by adding the "Boomlet".

- 52722011** '95 and newer SPORT "Boomlet"

17 SPORT TO 17SE CONVERSION Have a Sport 17 and want to race? This kit includes all parts needed to convert a 1995 or newer 17 SPORT to the race SE version. Included are the boom, gooseneck fittings, mast rotation parts and forestay assembly. Older Sports equipped with HARKEN main traveler track may need to convert to the class legal "Tracker" traveler system (not included). Pre '95 Sports require purchase of new main sail.

- 52995640** Sport to 17SE conversion kit

HOBIE TIGER / SNUFFER SYSTEM

HOBIE 16 / SNUFFER SYSTEM

TECH TIP!

SPINNAKERS Flying a spinnaker is one of the great thrills of sailing. And one of the great challenges for both skipper and crew. Spinnakers increase downwind speed while actually creating lift at the bows! Few things compare to the thrill of running off the wind under a huge and colorful spinnaker! Spinnakers require special rigging. A survey of the products on these pages will give you a good idea of the options available.

HOBIE WAVE

SPINNAKERS

SPINNAKER SYSTEMS Quick setup, ease of use, and maximum performance were just a few of the design criteria. Our spinnaker kits provide better sail control with fewer lines. The Spinnaker Pole and Rig Kit contain all the equipment and lines to control hoisting, setting the tack and sheeting the Spinnaker. Just pull on the halyard ... the sail is hoisted and the tack is hauled out to the pole end!

BATTENS

UNIVERSAL BATTENS Availability of the correct batten has often been a problem. The various models of Hobie Cats all use different batten and taper lengths. In earlier years, each model Hobie used a different color batten. The battens were all the same specification, just a different color. We now stock only white sail battens for all models.

Complete battens sets, cut and tapered to specification length are available for some models. Individual battens are filled from stock as shown in the following table. Batten numbers start from the bottom batten in each sail (#1). Battens are trimmed by purchaser to exact length. Stock batten lengths are shown in the illustrated Hobie parts pages 49-70. (T)=Tapered

82010001 Batten (max 107 7/8", min 87 5/16") *not tapered*

82020001 Batten (max 82 3/8", min 72 1/8") *not tapered*

82030001 Batten (max 90 1/8", min 46 1/8") 27" *taper*

82040001 Batten (max 42 11/16", min 39 1/16") 27" *taper*

82060001 Batten (max 100 9/16", min 67 7/8") 27" *taper*

82070001 Batten (max 69", min 51 3/4") *not tapered*

82080001 Batten (max 45 3/4", min 24 1/8") *not tapered*

| | 82010001 107 7/8" | 82020001 82 3/8" | 82030001 90 1/8"(T) | 82040001 42 11/16"(T) | 82060001 100 9/16"(T) | 82070001 69" (J) | 82080001 45" (J) |

SUPER JIB BATTENS Work your jib with greater ease. Light and limber fiberglass battens virtually eliminate hangups when tacking the Hobie 16 and give your jib superior shape in light air when you need it most. Increases drive compared to the stock jib battens. Not class legal for racing but so nice to use the rest of the time. Complete with endcaps.

122 Set of Four

JIB BATTEN HINGE Solution to jib hangup when tacking the Hobie 16. Easy to install, these allow the jib battens to pivot on contact with the mast and to snap back straight after the tack.

20390001 1 Hinge

20392001 4 Hinges

HOBIE CAT LEACH & LUFF CAPS

Release the batten tension whenever you store your sails. This will prolong the life of your sails. Luff caps and adjustable leach caps are made of high strength, ultra-violet tolerant Delrin®. No knots to tie or untie. Tension adjustment lines not included. Sold individually. 4:1 mechanical advantage allows finer adjustment than does Trentec 2:1 caps.

- 11323000** Main Leach
- 21333000** Jib Leach
- 11322011** Main Luff Tip

TRENTEC LEACH CAP SETS

No knots to tie and untie. Guaranteed slip proof. Includes lines.

- 1521** H14 Kit
 - 1522** H16 Main Kit
 - 1523** H18 Kit
 - 1531** H16 Jib Kit
 - 1529** Foam Batten Cap
- 3/4" H20/P19

BATTEN TENSIONER Talk about precision batten adjustment. This screw thread adjuster allows as fine an adjustment as you want. It clips to the sail (at the batten tie string grommets) and pushes against the end of the batten. No batten cap is required. Use with Trentec Draft Gauges and always know exactly what your sail shape (due to batten tension) will be.

- 1528** Each

TRENTEC LUFF CAPS Prevent "poke through"! These Trentec caps slip over the luff (front) end of your mainsail battens to increase the life of your sails and of the batten-pocket protectors. Each cap is molded at the angle to match the angle at which the batten meets the luff.

- 1561** H14 Kit (6)
- 1562** H16 Main Kit
- 1563** H18 Kit
- 1566** H16 Jib Kit
- 1567** H17 Kit

TRENTEC DRAFT GAUGES Use these coded, adhesive backed vinyl strips to calibrate your batten tension for each and every wind condition. Scale calibration mathematically calculated for each batten to assure consistent batten tension.

- 1541** H14 Kit
- 1542** H16 M & J Kit
- 1543** H18 Kit

TECH TIP!

SAIL CARE At the end of the day most cat sailors roll their sails on the lower batten or around the boom. If you do, roll your sail loosely. Any sharp bends in the sail cloth break down the resin coating on the cloth. This weakens the cloth leading to premature stretching or pin size holes that will grow. You can lengthen the life of your sails with careful handling and by using some of the special accessories we offer. The various tapes and sleeves we offer are all intended to protect the sail from sharp edges and abrasive areas on the boat that wear away at the sail's fabric until suddenly there's a hole and next a tear. It's never too late to slow down wear and tear.

TAPE Your sail is expensive! Save it from an early grave with space age tape that affords ultimate protection to the batten pockets—where the shrouds eat through the cloth. Even covered shrouds don't postpone this for long! This remarkable material has up to 10 times the abrasion resistance of steel and yet this transparent tape will not hide your sail's colors or leave you with a gummy, unsightly residue that Duct tape and other tapes will.

GREAT FOR USE ON ALL FULL-BATTENED SAILS!

- 1491** H16/20 Main
- 1492** H14/17 Main
- 1493** H18 Main 3
- 1494** Tape per foot

SPREADER BAR END COVERS

Smooth and resilient white vinyl spreader bar end covers protect the jib luff from wear and tear on cotter keys and sharp edges. A real sail-saver.

- 3262** Pair

JIB PROTECTOR KIT Install hard plastic covers specially designed for cotter keys and Hobie 18 and 20 spreader bar ends. No slitting or taping required.

- 1512** H18 Kit
- 1513** H20 Kit

SAIL CHAFE PROTECTOR SET From Harken. A split roller predrilled to fit up to 3/16" diameter wire. Replaces diamond wire rollers.

- H285** Set

SAIL REPAIR TAPE Don't get caught with your sails down! Extra strong, Rip Stop white tape for temporary on-the-spot repairs to torn sails, canvas, even foul weather gear. Keep a roll in your toolbox for emergencies.

- 1662** 2" x 25' Roll

SAIL REPAIR KIT Takes care of emergency repairs to sails and trampolines. Kit includes 3 different weights of thread, 3 sizes of needles, and 6" x 6" white sail cloth.

- 1665** Kit

WINDTRONIC2 WIND METER The cup principle eliminates the cumbersome need of orienting the device as measurements are obtained irrespective of wind direction. Clearly Legible Display, The large LCD display shows the following readings: Current wind speed, Max. wind speed (MX) Average wind speed (AV) Bar graph of current Beaufort values. Selectable Units: By a simple push of a button you may select one of the following units: KM/H (Kilometers/Hours), KTS (Knots), M/S (Meter/Second), MPH (Miles/Hour). Manual or Stationary Operation: An integrated tripod thread allows you to make temporary stationary use of Windtronic 2. Accurate Readings: A combination of precision mechanics and quartz-controlled electronics guarantees the high level of accuracy over the entire temperature range. Minimal Energy Consumption: A standard lithium battery will supply your wind meter with power for approximately 10 years. After that time, you can simply replace the battery yourself. Precision made, the Windtronic 2 is a German anemometer. It gives readings for current, average and maximum wind speed in a choice of Km/h, mph, m/s or knots with a Beaufort scale on the left of the screen. Water resistant.

Comes with belt carry case. 2 year warranty.

278 WINDTRONIC2 WITH BELT POUCH

BLACK BEAUTY Black tell tale that is highly visible on the leeward side of light colored sails. Perfect for white dacron and neon mylar sails.

335 Set of 14

AIR-FLOW TELS Trim your sails for optimum performance. Attached air flow over sails is critical. Air flow directions are indicated by these tell tails. Made of light weight rip stop nylon (Red / Green). Attaches to sails with waterproof adhesive disks.

334 Set of 14

DWYER WIND METER Two scales are provided for maximum readability and accuracy. To operate, hold at eye level with back of the unit to the wind. The position of the white ball in the tube indicates wind speed in miles per hour. Wind Meter comes in waterproof plastic case with maintenance kit and instructions.

330 Each

KESTREL WINDMETER The Kestrel 1000 Wind Meter measures wind speed, maximum wind speed, and average wind speed. This compact, durable unit fits nicely in the palm of your hand and weighs a mere 65 grams. The Kestrel 1000 features a large liquid crystal display which is easy to read under almost any condition. Protective cover with sure-grip molding. Battery and nylon lanyard included. Large easy-to-read display. Entire unit is waterproof and designed to float if dropped in the water. Two Year Warranty. Battery: User-replaceable CR2032 coin cell with a typical life of 400 hours. Actual size: 4.8" x 1.7" x 0.6" (size w/out case)

277 Kestrel Windmeter

TECH TIP!

WIND INDICATORS When sailing downwind, without a bridle fly, you can't gauge apparent wind direction without looking up and taking your attention off the action (boats crossing) on the water. The light weight indicators are most suitable in moderate and stronger wind conditions. Not severely affected by wave action, they work well tacking downwind. They are both durable and sensitive. The heavier Telo Cat is the most durable. It stands up to crashing waves sailing in rough conditions. Mast head indicators excel at detecting wind shifts and velocity changes. The bridle fly is the best when sailing off the wind, especially in light and moderate air.

HOBIE BRIDLE FLIES Durable Mylar wind vane with excellent light to moderate air response. Adjust your sails to the apparent wind angle. A must for best downwind sailing performance. Stainless steel mounting shaft. Quick removal for trailering.

CM7703 Std Bridle Vane

CM7704 Replacement Vane

CM7703H7 H17 Bridle Vane

TELO CAT WIND VANE Tough molded plastic vane. Rugged heavy duty stainless steel shaft with Teflon bearings. Tacking arms can be set to desired vane angle for optimum performance setting. Easy removal—no tools required. Fits Hobie 14/16.

377 Telo Cat

378 Vane Only

- 20970000** H16 White
- 50670000** H17 White
- 60970000** H18 White

HOBIE TRAMPOLINES We've got what you want and it's in living color! All of our HOBIE trampolines are heat welded rather than stitched for the ultimate in longevity and easy maintenance. There is no potential of UV degradation of thread or loose thread unraveling an entire seam. This is a HOBIE exclusive, longer lasting by far!! All include halyard pocket. *Note: Hobie Class Association racing requires the Hobie Cat factory supplied trampoline.* See parts guides and price list for trampolines not shown here.

TECH TIP!

HOBIE TRAMPOLINES Hobie trampolines are the best! We use heat welded vinyl in all of our trampolines to create the strongest and longest lasting trampolines on the market! Others stitch their trampolines. That stitching breaks, unravels and rots! It also weakens the trampoline material by poking holes in it! With heat welding, this does not happen! All of our trampolines are triple reinforced at all stress points including the corners and webbing grommets. We make our trampolines in either solid vinyl or mesh vinyl. Our vinyl trampoline is dryer, while the mesh will allow the wind and water through.

TRAMPOLINE DRINK HOLDER

Hobie Cat put drink holders into the 21 Sport Cruiser wing tramps and Wave SE trampoline. You can add drink holders to your trampoline too! Requires a hole cut into the trampoline and stitching. Can be done by a sail loft or upholstery shop.

1125 Drink Holder

TRAMP LACING KIT Many sailors prefer lacing their trampoline with shock cord. This kit includes three pieces of 3/8" nylon covered black coated nylon shockcord and 12 clamping rings. Fits the H14, 16, and 18. Not shown.

2064 Kit

TRENTEC™ TRAMP CLAMP™

Prevents trampoline from pulling out of aluminum extrusion. Increases trampoline life. Minimizes chafing of the trampoline at the critical stress points.

2066 Set

MAINSHEET OVERBOARD PREVENTER

This neat little piece of mesh laces into the existing tramp grommets, filling the center gap that the mainsheet is forever falling through. Existing lacing does not need to be undone. Kit includes line for lacing the preventer.

2067 66 inches

TRAMPOLINE DOUBLE GROMMET KIT

Hobie Cat doubled the number of grommets across the rear of the trampoline in 1983 to reduce stress and strengthen the trampoline. This kit includes 24 spur grommets and installation tools. Buy an additional 24 grommets to do the center lacing.

2061 Complete Kit

2062 24 Grommets

HOBIE EPO²

HOBIE CAT COMPANY - USA / AUSTRALIA

EPO² RUDDER BLADES The return of the famous EPO!! The legendary rudder shape but improved. Hobie Cat took the original EPO foil and digitized it to weed out imperfections in the original design. We also improved the trailing edge for better "out-of-the-box" performance. We developed the EPO² rudder blade as the next

generation performance rudder blade for the 14, 16, 17 and 18. With this proven foil shape and a fine trailing edge, the EPO² offers reduced cavitation and hum with smoother, more forgiving control. The EPO² rudder is stiff where it counts due to its hand laid fiberglass construction incorporating extra cloth for longitudinal stiffness. We have placed extra glass in all the right places to ensure that it is tough enough for the most demanding sailors using extreme mast rake. You will experience supreme performance and handling not found with other rudder blades. Choose the blade that is best for you! White Poly: for areas with weeds or kelp. Black Carbon: Gucci looks, stiff and light weight. Carbon / Kevlar: Gucci looks, stiff and light weight.

20490010 EPO² White Polyester blade – ea.

20490020 EPO² Carbon Epoxy blade – ea.

20490030 EPO² Carbon / Kevlar Epoxy blade – ea.

20493000 Std Nylon Plastic blade, White – ea.

The EPO Story: Years ago when Hobie Cat was part of the Coleman Company we had a sister company which built the original EPO rudders for us. It was a highly advance production process. The EPO was very popular, handled great and was very durable. Sailors LOVED them! In the late 80's the EPO production capability was lost to us. Now we are very pleased, as many a sailor will be, that the EPO has been re-born!

EPO² WHITE POLYESTER

EPO² CARBON EPOXY

EPO² CARBON / KEVLAR EPOXY

KEVLAR LIMITED TO STOCK ON HAND

DIE CAST GUDGEONS Standard on current production, these die cast aluminum gudgeons are now available for your Hobie 14, 16 or 18. Their one piece construction guarantees hole alignment, reducing rudder pin wear, slop and drag. (* H18 Cast Gudgeon includes a rudder pin, cotter keys and washers.)

50102011 H14/16 ea

60102011 H18 ea*

STAINLESS STEEL RUDDER PINS Made from 3/8" stainless steel rod, these rudder pins are extremely durable. Sold Each.

20880011 H14,16 ea

60880011 H18 ea

FIBERGLASS RUDDER PINS Durable, wear resistant fiberglass rudder pins won't corrode in salt water. 3/8" diameter provides tight fit and eliminates some of the slop due to worn out gudgeons. Sold in pairs.

5051 H14/16 Pair

5052 H17/18 Pair

60880001 H17/18 Alum

RUDDER CASTING BUSHING Are you plagued by sloppy rudders? Do your nyloners keep slipping out? Open up the holes in your rudder castings to 7/16" and install these insulating, self lubricating nylon bushings.

8062001 Set of Four

TECH TIP!

RUDDER RAKE

Excessive weather helm (when you must pull hard on the hiking stick to keep the boat from turning towards the wind) can be corrected by cocking the rudders farther (forward) under the boat. If you have too much lee helm (very little pull on the hiking stick, with the boat tending to turn away from the wind), this is corrected by unscrewing the adjustment and cocking the rudders back (aft). The amount of rudder rake needed depends on how far back the mast is raked and how much weight is being carried. The biggest problem with rudder adjustment is when a skipper changes the blade adjustment screw without reseating the cam plate in the upper casting. Even a very minor adjustment to the rudder could cause the cam to lock partially rotated, dramatically reducing the kick-up resistance. That means every time you make a blade rake adjustment, you must also reseat the plate AFTER you have finished adjusting the blade rake. There are three very important adjustments that should be made to the rudder assembly.

1. The rudder rake screw which adjusts blade angle.
2. The cam plate bolt which holds the blade forward.
3. The cam tension screw which adjusts kick-up tension.

When system adjustments are made improperly, the system won't work right. You must follow these steps in order!

1. Lift the rudder arm to unlock the assembly.
2. Using an allen wrench, adjust the rudder rake screw to give the desired rudder blade angle (rake).
3. Make sure that the blade is seated forward against the adjustment screw, loosen the cam plate bolt and lock down the assembly. Slide the plate back a little and then forward as far as it will go up into the cam. Retighten the bolt with a 1/2" socket.
4. Adjust the kick-up tension screw with a screw driver. You can calibrate the tension with a fish scale by making a loop of rope and putting it on the rudder blade about 24" down from the front bolt hole. Hook the scale to the loop and pull. Factory kick-up tension is set between 18-22 pounds.

STANDARD HIKING STICKS

See the part diagrams on pages 43-61 for the proper length.

ALUMINUM HIKING STICKS Fine quality budget priced hiking stick. Extend to the most comfortable length. Yoke is included. Available in silver only. Not class legal for racing.

3201 54"-96"

3202 43"-71"

3203 42"-96"

3205 Yoke Connection

ARRIBA "HOT STICK" HIKING STICKS Impact resistant fiberglass telescoping hiking stick. Cam shaped internal shaft locks outer shaft with simple 20° twist of handle. Uni-directional lock for smooth sliding action. No moving cam parts. Full length grip surface allows twist lock/unlock along entire length. Elastically coupled hinge is tough. Yoke for attachment to tiller cross bar is included.

FX3 52"-96" (H16)

FX4 57"-105"

FX6 63"-120" (H17, 18SX & 21)

3208 Replacement rubber grip

HIKING STICK SOFT GRIP This soft grip for your tiller extension eliminates "slippery stick". Twelve inches long, made of UV tolerant closed cell foam. Glues on.

3207 FX/Hot Sticks

3206 Standard Tillers

HIKING STICK BALL GRIP Many sailors prefer the "feel" of a round grip. Install a 2 inch Ball Grip on your Arriba FX or Hot Stick hiking sticks for that solid contact between yourself and the rudders.

FXGRIP Kit

THIRD HAND This is the closest thing you can get to "self-steering" on a Hobie Cat. This handy little device grips the hiking stick, holding the tiller at whatever position you please. Great for light air sailing or when paddling in if the wind dies. It also keeps the rudders from flopping around when on the beach. Attaches at each end of the traveler track. For the Hobie 14 & 16 only.

204 Pair

BALL LOCK PINS Remove hiking stick from the cross bar for trailering or storage without the hassle of unwinding and dropping "ring-dings".

20303 Aluminum.

20304 Hot Sticks

TILLER CONNECTOR & ADJUSTMENT (HOBIE MIRACLE 20 STYLE) We've taken the tiller connection system for the Hobie 20 and adapted it to all of the Hobies. Now you can have the no slop, easy adjustment, 10 second assembly/disassembly convenience of the latest in tiller crossbar connection systems. There is no better tiller connection and adjustment available at any price!

1953 Pair

TILLER CONNECTION KIT Complete tiller linkage replacement kit. The contoured spacers fit snugly against the tiller end caps and crossbar alignment end cap to eliminate linkage sloppiness without spending a fortune. Includes all required parts.

3052 Pair

RUDDER CAM KIT Replace the rudder cam and flared pin with this kit that includes a pair of cams and a pair of binding post screws.

5202 H14/16

5204 Wave, 17 and up* *(H18 '86 & up)

RUDDER STIFFENING KIT Beware of imitations! Features special high density polyurethane washers that will last and last. Highest quality components. These washers and stainless steel Nyloc nuts work great to give your rudders that tight fit. Eliminate wobble between rudder blade and upper casting. Don't settle for less—Get the ORIGINAL.

136 Kit

RUDDER CAM SISTER SCREWS Replace your old flared pins with these reusable pins. No more riveting and drilling. These reusable binding post screws let you change rudder cams with the turn of a screwdriver. Sold by the pair.

5201 H14/16

5203 Wave, 17 and up* *(H18 '86 & up)

TECH TIP!

To have that right feel... you have to have a rudder system from hand grip to the lower tip of the rudder, that is without slop and can be adjusted to your comfort and convenience. Whatever your steering system problems, you'll find the proper fix in this section.

KICK BACK KIT Returns rudders to locking position quickly and effortlessly. Really great when sailing in weed filled waters. Installs on the existing rudder bolts. Fits all Hobie 14's/16's. Class legal.

1544 Kit

JIB TRAVELER CARS

for the integrated track crossbar on the Hobie 16! This car adds bearings to the popular "16 Worlds Supplied" version from the 2004 Worlds. This is now standard equipment as of late 2005. This jib traveler is constructed of Zytel. Zytel is made of glass reinforced nylon which results in a very strong material. This resists fatigue and impact failure. Brass traveler bearings for easier movement under load. Includes holes for anchoring traveler and traveler return lines.

25232201 Port

25232211 Starboard

TRENTec JIB TRAVELER CAR

Provides the super low profile needed with raked back masts. Slides in track easily. Can be used with bullet block shackled to sheet rope lead eye to reduce friction to a minimum. Requires traveler car trim system and sheet rope cam or lance cleat.

1552 H16 Pair for Original SS Track

1553 Jib Cars for Integrated Track

LO-PROFILE JIB BLOCK For the Hobie 16 original SS Tracks. It is a basic swivel cam cleat with roller fairlead and Harken aluminum jaw cammatic, mounted on a stainless steel slide. It self aligns with the angle from which the sheet rope is being held for ease of cleating no matter where the crew is positioned. It's one piece, easy to install, light weight, low profile, interchangeable with left or right side and self aimed at the windward side of the boat.

1075 W/Cammatic

1076 W/O Cammatic

THREE WAY ROLLER FAIRLEAD-

This unique fairlead / bullseye reduces line friction and wear. With rollers on each side and the top it is ideal for the newer Hobie 16 jib sheet systems or the main traveler trim system.

50018 Three Way Roller Fairlead

ROLLER FAIRLEAD KIT Simple to install kit converts cleat arrangements that use "bullseye" fairleads to roller fairleads, reducing friction and line chafing. With all hardware. A screwdriver is the only tool needed. Accepts up to 1/2" line.

50012 Kit

FAIRLEADS

Keep your crew happy! These line leads are non-invasive.

H328 For 150, 365

H329 For H423

(Cammatics not included.)

HOBIE CLUB WAVE MAIN TRAVELER KIT

Upgrade any Wave Club model to have a main traveler system. The addition of a main sail traveler will offer better sail control in higher winds and down wind sailing angles. Helps to limit heeling in higher winds while optimizing speed potential. Also reduces loads on the bows, therefore reducing the amount of dive or pitch pole potential. Go faster with better control! Kit includes deep profile traveler track, rivets, #111 brass wheel traveler car, swivel cleat, mount and instructions.

39250000 Club Wave Main Traveler kit

1071

Swivel cleat system

1073

Lance cleat system

JIB TRAVELER TRIM KITS These traveler adjustment systems can be used while out on the trapeze. They work with all of the jib cars available. They can both be set up to self return the cars inboard or outboard. Color coded trim lines and all hardware are included. The 1071 kit with swivel cam cleats allow cleating and uncleating from any position on the boat. Lance cleats in the 1073 kit limit the location from which trim lines can be cleated.

1071 Kit w/Swivel Cam Cleats

1073 Kit w/Lance Cleats

LANCE CLEATS The lance cleat utilizes a single rugged aluminum alloy cam mounted vertically in a black molded frame. Just slide the rope sideways and it runs freely in the fairlead, which has a colored roller incorporated in the top for easier sheeting and identification. Ideal for use in confined spaces. For use with 1/4" line. The base size is 1/16" x 15/16". Height is 7/8".

R359S Stbd

R359P Port

ACCESSORY MOUNTING PLATE

Universal mounting plate for swivel cam cleats, compasses, drink holders, etc. High strength black Delrin® construction that is ultraviolet tolerant.

1161 w/o Hardware

1162 w/Hardware

SWIVEL CAM CLEATS Swivel cam cleats feature the Harken Cammatic Cleat. The Cammatic is matched with either the standard bullseye fairlead or the Roller Fairlead. The bullseye fairlead is available with either the plastic jaw Cammatic H365 or the aluminum H150. The roller fairlead is matched with the aluminum jaw H150 Cammatic only.

50007 Eye w/ H365

50009 Eye w/ H150

H365 Carbon Matrix Jaw

1/8" to 5/16" line

H423 Micro Cleat, Carbo Jaw

1/8" to 1/4" line

TECH TIP!

BOAT CHECK LIST There are a number of items to check on your boat. Do this on a regular basis and before sailing for the first time each season.

Here are a few of the basics...

STANDING RIGGING (wires) - Check for broken strands. Inspect and slightly bend at all fittings to find broken strands (replace if needed). Check all clevis pins and keepers.

HARDWARE - Check for bent or damaged shackles and other components.

LINES - Check for wear.

HULLS - Check for leaks and possible structural problems. Delamination of the hull structure could lead to major failure.

MAST - Check mast and all aluminum spars for corrosion and other damage. Corrosion can cause structural failure.

RUDDERS - Check the cam lock-down system. This should be free of dirt and sand. Grease regularly to allow free rotation motion.

DRAIN PLUGS! - Need we say more.

HARKEN 2 1/4" BLOCK LOW PROFILE 6:1 Successful racers have gone to super low profile systems on Hobie 16's (6:1) and 18's (7:1). This allows the sailors to achieve more mast rake for better pointing ability and reduced pitch pole tendency. They are using the Harken 2 1/4" ratchet block and boom blocks with 3/8" line. The lower block is customized to allow the post to enter the traveler car hinge plate on the Hobie 16. To convert to 7:1, H18 sailors add a mini-block to the eye that's normally used to tie off to and then tie the line off on an empty boom bail. New Hobie 16s come with H194 Lower ratchet and H2640 Carbo upper.

H2640* Upr 40mm Carbo

H153* Upr 2.25" Block

H194* Lwr 2.25" Block

* use 3/8" sheet rope for smooth flow of line through blocks.

HARKEN 3" BLOCK LOW PROFILE 6:1

The blocks have 3" sheaves to accommodate 7/16" sheets.

H152 Lower 3" Block

H049SP Upper 3" Block

H125 Mini Block (to 7:1)

Note: add 8' to sheet rope length when converting to 7:1 system.

A NEW 6:1 DOWNHAUL KIT
downhaul system for Hobie 14 and 16.
Now Class Legal. Kit comes complete with Harken carbo triple block and triple with cleat. Includes class approved attachment for base of mast, all hardware and line. Use with the gooseneck slide kit # 1511.
2089 6:1 Kit

B DOWNHAUL SCALE Can you ever remember where the downhaul was set that day you "smoked" everyone. This handy stick on scale takes the guess work out of setting the downhaul.
2082 Each

GOOSENECK BEARING Eliminates drag and prevents gouging the gooseneck slide on Hobie 14, Hobie One-14 (Holder) Monohull and Hobie 16 luff track. Delivers a fantastic improvement in downhaul adjustability!
1511 Kit

POWER DOWNHAUL SYSTEM COMPONENTS Major components from the Power Downhaul System are available and listed below:

H291S Harken mini swivel control cleat
assy.w/cam

H226S Harken double micro block with twist shackle for gsnnk ring (H16) or lower block (H18)

H225S Harken single micro block w/ becket and shackle for lower block (H16)

H228

H231

HARKEN TRIPLE W/BECKET & CAMMATIC Perfect for H16 or H17 downhaul.

H231 Each

H228 Each

EYESTRAP FOR BOOM VANG Heavy duty eye strap for connecting boom vang at the mast base rather than at the trampoline slot in the cross bar.

2072 With Fasteners

DOWNHAUL / HALYARD SHEAVE Ease raising the sail and/or adjusting the downhaul with Harken ball bearing sheaves. They really make the job a whole lot easier. A direct replacement for the sheaves that came with the early Hobie 17's.

H160 Each

TRENTEC SUPER GOOSE Adds convenience and security of attachment at the boom to mast connection. Replace the vertex that connects the boom pin to the gooseneck yoke assembly on the mast. Custom made for the Hobie 18, machined from a block of 6061-T6 aluminum and hard coat anodized. Will not bend and open up no matter how strong the wind. Go a step further and permanently secure the clevis pin that connects that Super Goose to the boom pin with a cotter key. Replace the nut and bolt connecting the vertex to the mast yoke with a 20304 ball lock pin.

1510 Each

BOOM VANG Features fiddle blocks with cam cleat on upper block for easy release and tensioning. Open hook allows quick connect and disconnect from trampoline slot in front crossbar or mast base.

2073 Standard 3:1

HOBIE "AUSSIE" HALYARD RING The Aussie Halyard Ring makes engaging and disengaging the halyard ring from the halyard hook a real snap. This device keeps everything at the right angle. Welded one piece design. Hobie 18 ring has a twist shackle with a captive clevis pin so there are no parts to lose.

3064 Each

HALYARD GRIP Keeps those halyards close in to the mast and out of the way so that the jib doesn't hang up on them. Molded from strong Delrin and contoured to the curve of the mast. One on each side of the H16 mast does the trick.

114 Each w/hardware

HOBIE 16 "AUSSIE" JIB HALYARD

Reduces mast compression by 66%. Allows easier tacking, better mast rotation and consistent mast bend! Complete kit includes hardware, 70' (Dyneema®

or equivalent) halyard line, zippered pouch, and instructions. Racing class legal.

80660000 Kit

L'IL SISTER CLIPS The answer to "What to do with all the jib halyard?" L'il Sister Clip speeds the untie and retie of your H18 jib halyard. Includes both segments of jib halyard.

FAST SHACKLE The Fast Shackle was created for the jib clew blocks on the Hobie 16 & 18. It's a halyard shackle and an Avibank ball lock pin permanently wired to the shackle so it won't drop in the drink when the blocks are released from the jib clew.

3062 Each

SNAP SHACKLE Makes it easy to remove expensive mainsheet systems from your boat when it's parked on the beach or for ease of take down and set up for trailering.

20803 Each

SUPER LOW STRETCH LINE Pre-stretched polyester line with superior fatigue and abrasion resistance. Our line (3/16"-3/8") tested as the lowest stretch (.5%) of any all polyester line available. Sold per foot.

YALE LITE lightweight floating mainsheet has a braided core and smooth profile cover of non-water absorbing floating Marstron. The smooth cover provides greater feel and faster running through blocks. (Colors vary)

8004631 3/8" (H16 Main Sheet)

8004651 5/16" (H16 Jib Sheet)

AMSTEEL High modulus Polyethylene (aka SK75 Dyneema) 12 strand single braid and is urethane coated for maximum performance. Its tolerance to abrasion is excellent and it is resistant to degradation from ultra violet. This line will also float and has zero water uptake. Color may vary.

8004951 H16 Aussie Halyard

YALE LIGHT Yale engineers worked for years to develop this extremely light yacht braid incorporating ultra high strength SPECTRA™ fiber. It's not the fact that it has almost zero water retention that is so important to the catamaran sailor. What makes Yale Light such a great catamaran sheet is the fact that it's so light it doesn't snap, flap or tangle. Other tangle free line is stiff. Not Yale Light. It just has minimal weight and no water weight – so there's no momentum to cause tangles when tacking, or when you're loafing along with the sheet ropes loose. Sold per foot. Colors may vary.

RY038RB 3/8"

RY516RY 5/16"

SUPERSTRETCHSHOCKCORD This midnight-black shockcord has double the stretch of ordinary cord. If you've been getting your shockcord from the hardware store, you're in for a treat. The durable black cover is woven around an extra-flexible rubber core.

HOBIE WING SEATS

SX18 WING SEATS Turn any stock Hobie 18 into a high performance chaise lounge. SX18 wings are made of anodized aluminum, with a vinyl trampoline seat. They are almost 11' long with a 12" wide seat, yet weigh only 18 pounds each. And once you've done the initial installation it's easy to install or remove the wings whenever you wish. In fact, working at a leisurely pace it should take all of three minutes per wing. Designed for Hobie 18 and 18SX. Folds upright for trailering with the simple removal of 4 clevis pins.

68001000 Wing Assy (without tramp)

68040240 Tramp, Wing SX18/H21 - White Vinyl

680402XX* Tramp, Wing SX18/H21 - Color Mesh

* See price list for available colors

Note: Wing / Seat prices DO NOT include freight to dealer or assembly costs.

GETAWAY WING SEATS These are perfect for lazy day sailing or relaxed hiking out on your Hobie Getaway. Colored mesh vinyl covers these aluminum extrusions that are contoured to make a very comfortable back rest or seat. Remove two quick pins per side and they rotate in for trailering. (*Order Wing Covers Separately)

37001000 Wing Assembly*

37971058 Cover Turquoise Mesh

WAVE BACK RESTS These simple to install Back Rests are perfect for lazy day sailing on your Hobie Wave. The last word in sailing comfort. They plug into the front and rear cross beams. On or off in 3 minutes or less.

38040011 Back Rest, Set

38041001 Replacement Cover, Backrest Pad (Blue)

8020181 Fast Pin (ea.) for quick release of back rests.

Four required. Sold separately.

ELECTRIC MOTOR MOUNT Don't let light air or no air halt the fun on the water in your Hobie 16. Our light weight Electric Motor Mount and Battery Box saves the day. Retract the motor (sideways) and sail when there is wind. If the wind dies, drop the motor down and motor on. Electric motor and battery are generally available locally for less than \$200.00. Entire rig removes in less than a minute for racing or heavy air sailing.

3179 Mount & Battery Box

MOTOR STOWED FOR SAILING

MOTOR MOUNT WAVE SE Maneuver the Wave in channels, streams or up wind to your favorite beach. Move around with or without the wind. Our easy to install electric motor bracket attaches to the rear cross bar with the trampoline strap.

3183 Motor Mount Only

CHEATA MOTOR MOUNT

Maneuver your boat in channels, streams or up wind to your favorite beach. Move around with or without the wind. Easy to install motor bracket attaches to the rear cross bar.

Rear Mast Stand

TRAILER Dip galvanized steel for a long, low maintenance, life. Trailers ride on 8" wheels. **Wave/Bravo trailer** has rubber bunk pads for the hulls to rest on and four guide rollers, does not include mast stand (order separately). **Getaway trailer** has 4 sets of double rollers to better support the weight of the Getaway. Includes a mast stand (not shown).

Trailer prices DO NOT include freight to dealer or assembly costs.

SAIL STORAGE BOX "TOY BOX" The original Toy Box! Made by roto-molding as one seamless piece with molded-in graphics. Big enough to hold two sets of Hobie sails, booms, daggerboards, rudders and have room left for odds and ends. The bottom is ribbed to allow wet things to drain. There is full access from front and back, even with the boat on the trailer. Mounting hardware is not included. This storage box doesn't care if you sit on it, fill it full of rocks and drop it from 10' or however else you brutalize it. It's tough. Length 10' 4", Width (rear) 21", Depth (rear) 13", Width (front) 19 1/2", Depth (front) 10", Weight 55 lb. *Prices DO NOT include freight to dealer.*

1825WHT One piece sail box. Additional freight charges may apply.

UNIVERSAL COVERS This is a semi-custom fit cover designed to fit a variety of boat lengths and cut into catamaran shape. It's made of tough woven polyethylene that is coated on both sides, one side silver, one side black. We've chosen this polyethylene because of its excellent resistance to ultra-violet degradation. It is a woven rather than sheet fabric to provide great tear strength. These covers will tolerate sun, wind, rain, high and low temperatures, and not fall apart. This fabric was specially designed for outdoor application. Install with silver side out.

TECH TIP!

BOAT COVERS Our boat covers are designed to protect your boat from UV degradation and dirt. Storage covers are one piece and designed for easy installation. They fulfill their purpose mast up (with minor modification) or mast down, on the beach or on the trailer. The fabric is woven polyethylene that is film coated on both sides to cover the woven fabric. It has fantastic tear resistance and is specifically designed for outside use. UV tolerance is one of its major attributes.

Each cover is cut to be used for a boat length range. Tapes are sewn in place to allow you to secure the cover around the hulls and crossbars. Custom features such as cut outs or slits for wires or wings can be created with scissors. The edges will not catch, fray, or pull. We ship 5 feet of adhesive backed velcro with each kit to be used to prevent those slits from flapping in the breeze. These covers are not designed to be used while trailering.

HOBIE MAST CRADLE Fiber glass mast cradle for the Hobie 14, 16, 17 20 & 21SC. Molded to the shape of the rear cross bar and carpeted to protect the mast and cross bar. Includes a simple single shock cord tie down the secures the cradle to the cross bar and the mast to the cradle.

3175 Mast Cradle for Hobie Wave, 14, 16, 17, 20 & 21SC

WAVE 2 PIECE MAST TIE DOWN KIT Includes fiberglass supports and shockcords necessary to secure both mast sections to the boat while trailering. Quick and easy to use. Use of forward holder on Wave SE tramp requires modification (addition of one grommet in forward edge of trampoline).

38650041 Mast Sections on Boat (set of two)

38650031 AFT Cradle only

"ACROSS THE HULLS" TIE DOWNS One piece tie downs with hooks (and retainers) at each end and paddle handle buckle for easy adjustment. Each tie down is 2" wide by 13' long.

1795 Each

WAVE TIE DOWNS This outstanding four strap system features patented over center cam action locking buckles coupled with super-strong 2000 lb. test web straps and hooks. The tie downs secure your boat to any trailer in seconds. Full 1 year warranty on all parts. Custom Tie Downs come complete with all mounting hardware and instructions.

1791 Wave Tie Downs

CUSTOM TIE DOWNS This outstanding four strap system features patented over center cam action locking buckles coupled with super-strong 2000 lb. test web straps and hooks. The tie downs secure your boat to any trailer in seconds. Full 1 year warranty on all parts. Custom Tie Downs come complete with all mounting hardware and instructions.

1793 H14/16

1794 H17/18

HULL CRADLES Custom molded for the H20 hull, fits all Hobies but the Hobie 21SE/21SC/Fox/Tiger. The cradles distribute the traling loads over 800 sq. in. of the hull to assure there are no excess stresses while trailering. Rear cradles include tilt bracket for easy off and on loading of boat on trailer. Includes installation hardware.

48000001

Set of 4 (one front pair, one rear pair)

48030001 Front - Pair

48040001 Rear - Pair (with tilt)

1624 All others - pair (no hardware)

HOBIE MAST STEPPER III Specifically designed for the Hobie Getaway due to the rotated mast position when stepping. Can also be modified to work on Hobie 17, Tiger and 20. Step your mast with ease and safety. Specially designed bracket attaches to mast at base. A pole plugs into the bracket to create a gin pole arrangement that allows you to singlehandedly raise and lower your mast. It uses the trailer's winch (not provided) for power. Lines snap in place to eliminate side-to-side sway. Attaches quickly without tools. No modifications to boat. Can adjust to fit other rotated-position stepping masts.

3156 HOBIE MAST STEPPER III

3153 Winch (900 lb. capacity) No line included*.

EZ STEP™ As item above shows, a simple gin pole arrangement allows you to singlehandedly raise and lower your Hobie mast. It uses the trailer's winch (not provided) for power. Lines snap in place to eliminate side-to-side sway. Attaches quickly without tools. No modifications to boat. Adjusts to fit any catamaran.

3151 EZ STEP

3153 Winch (900 lb. capacity) No line included*.

TECH TIP!

Mast stepping Usually a two person job. For those days you need help, want to single hand or be able to rig the boat alone for any reason, a mast stepping aid is what you need. The primary function of a mast stepping aid is to raise the mast while restraining side movement induced by a cross wind. Often it is more difficult to handle the side motion than it is to raise the mast. It's the side motion that breaks or bends the hinges and/or mast base castings.

HOBIE MAST STEPPER This system has a gin pole that rests on a foot attached to the trailer. The mast is stabilized by tying a trap wire on each side to the front cross bar. Attach the trailer's winch (not provided) to the forestay and hoist away. Utilizes bridles to stabilize the gin pole while hoisting the mast.

3152 MAST STEPPER

MAST STEPPER II Easy to install because it eliminates the trailer mounted gin pole. However, the Mast Stepper II system does require that the trailer's forward mast support be 30" taller than the mast step. The mast is stabilized by tying a trap wire on each side to the front cross bar. The kit includes all necessary lines, shackles, blocks and instructions. Purchase winch separately.

3155 MAST STEPPER II

3153 Winch (900 lb. capacity) No line included*.

* Listed winch has a capacity of 40' of 3/16" cable or line - 30' of 3/32"

SHOCKCORD BALL TIES Lashing the wires to your mast for trailering is quick and easy with this handy tie-down. Use a couple to keep your jib furled on the beach and your sails rolled in the bag. Dozens of other uses.

370 Each

CADKAT WHEELS W/ CRADLES

These beach wheels come complete with adjustable cradles!

- 21" dia X 12" wide balloon wheels.
- 2" (50mm) anodized aluminum axle.
- Completely collapsible, breaking down into 2 x 47" long sections that easily fit into the trunk or back seat of a car. Weighs less than 40lbs.
- By breaking down so small we are able to ship at a much lower price than other catamaran dollies on the market.
- Converts to fit a Hobie 16 to a Hobie 20 to a Tiger and back in seconds!!
- Carpeted, thermoformed cradles will NOT damage your hull.
- The cradles are unbreakable will flex when loading and hug the cat hull while transporting.
- Only Stainless steel, anodized aluminum and fiberglass reinforced polymer construction throughout.
- Patented bearing that cannot corrode.
- No welds to corrode or crack.
- Lockable. The wheels have open spokes so just run a cable through them and lock to a tree or some fixed object when you go off for a sail.
- From carton to set up in less than 5 minutes.
- Only one allen key is required to assemble everything and we even include the allen key.

1650 CADKAT

BRAVO DOLLY The Bravo dolly includes a handle so you can easily slide the cart under the boat and push or pull along holding the handle. Box tube aluminum frame and air inflated tires. Frame has dual contact points / crossbars, so hull is balanced on the cart.

90870000 Bravo Dolly

CAT TRAX

CAT TRAX Cat Trax has become the standard catamaran dolly for moving catamarans over sand, mud, rocks, or any surface. Lightweight and rustproof. Fast and simple tiedown attachment. Your cat rolls effortlessly on smooth running low friction Delrin® bearings. Jumbo 11" x 21" balloon tires disperse weight, don't dig in on soft surfaces. Tough padded end-caps hold the boat in line. No rust, no lubrication, no hassles. Stores easily on the tongue of your trailer. Cradles not included except as noted.

1621 Cats to 8' Beam

1622 Hobie 20/21SC (8'6" beam)

(H20 add cradles #48010001, H21SC add cradles #1624)

1628 H21SE Cat Trax with Hull Cradles

TIGER TRAX

TIGER TRAX The "hard wheeled" version of the all time favorite catamaran beach dolly. Wheels that never need air so they won't go flat. Features the same needle bearings as the Cat Trax. Light weight.

1635 Replacement Cat Trax Wheel Assy

1636 Replacement Tiger Trax Wheel Assy

HULL CRADLES-BEACH DOLLY

Cradles distribute the boat load over 400 sq. in. of the hull to assure there are no excess stresses while carrying. 48010001 is custom molded for the H20 hulls, Fits P18.2, P19, Nacra 5.2 & 5.8 also. Fits all popular beach dollies.

48010001 H20 pair

1624 All others pair

TECH TIP!

COVERS Protect sails and hardware from sun and abrasion damage. Perhaps the greatest enemy of many modern fabrics is the sun's ultra violet radiation. It deteriorates nylon unless it's specially treated and it attacks dacron sail cloth and weakens it. Fortunately, nylon can be treated to make it UV tolerant and acrylic fabrics exhibit seemingly endless resistance to UV radiation. These sail bags and sail covers can be used to protect your dacron sails from UV radiation damage.

DELUXE HOBIE SAIL BAG Stop fighting with your sail and boom cover. This sail and boom bag zips full length for ease and convenience and will fit any Hobie sail and boom. Full ventilation on each end with vinyl coated mesh. Added convenience with a separate compartment for line and blocks. Made with nylon Cordura®, includes double shoulder straps for maximum ease while carrying. Ends unzip to extend for extra long parts (Color may vary).

3121 DELUXE SAIL BAG

SNORKEL JIB COVER Protect your roller-furled jib from attack by ultraviolet light and the weather. Easy to install and remove—the Snorkel is a must for protecting your expensive sail from eventual destruction by the elements. The Snorkel is a zip-on cover for roller-furled jibs. Made from durable fabric with a full length zipper. Snorkel covers are not intended for long term storage. Jibs must be furled tightly, have luff tension and be secure for windy conditions. Loose jibs and cover may cause chafing damage to sail.

1811 H18/H16/Sport/21S

1812 H14 Turbo/H1-14

1813 H20/H21SE/H18SX

1815 Getaway

COMPTIP COVER Hobie Cat recommends that the Comptip portion of the mast be covered to protect it from ultraviolet rays. Our cover is made of UV resistance treated nylon. Ties on to the mast with line that is provided. Fits all Hobie Cats. Will not work with mast floats installed. Royal blue.

3125 Cover—H16/18/20

3127 Cover—H17/21

90991000 Cover—Bravo Mast and Sail

RUDDER COVERS For your Hobie Cat. Excellent quality. Fastex fasteners keep the rudder covers firmly in place, even when trailering. Protects your rudders from nicks and grime. Sold in Pairs. Style and color may vary.

82420000 All but 21SE

STANDARD SAIL AND BOOM BAG Pulls over boom and sail like a sock. Open end closes with a drawstring and nylon clasp. Material and color may vary.

21310000 STD 9' 5"

38990050 WAVE*

UNIVERSAL SAIL AND BOOM BAG For all Hobies. Three-quarter-length zipper allows sail and boom to be covered while still installed on boat, using main halyard to hold aft end of boom off of the tramp. UV stabilized nylon balloon cloth. Color as shown.

3122 UNIVERSAL

DAGGERBOARD COVER Protect those daggerboards! This two pocket, woven polyethylene lined cover is padded and has a tough, Cordura (600 denier) outer material. It has carrying handles and velcro closures. Very important for preventing dings, gouges, and scrapes while storing and trailering. This is an absolute must for the racer. Room for two daggerboards. Style and color may vary.

11720000 Learn to Sail

CATAMARAN RACING FOR THE 90'S

By Rick White of "Rick White Sailing Seminars". Twenty one major subjects with whole chapters devoted to the start, each race course leg, sail shape, mast rake, etc. Special chapters written by Hobie Alter Jr., Bob Curry, Wayne Schafer, Carlton Tucker, Randy Smyth and several other experts. 352 pages.

614

SAILING DRILLS Rick White's Sailing Seminars have compiled all of the drills they have used. Coupled with ideas and knowledge from some of the worlds best sailors

these drills take sailing and dissect it into pieces.

609 Sailing Drills

WELCOME TO A FLEET - BOOK II Now that you've got boat speed, you've got to learn how to use it on the race course. This book fills that need.

601 BOOK II

For information on joining the Hobie Class Association of North America, contact hobiemembership@gmail.com or hca-na.org

It's the Hobie Way of Life!

"The Hobie Way of Life" summarizes how fleet members and their families feel about a sailboat that gives them an irresistible sense of freedom, camaraderie, excitement and fun. Hobie Catting means instant friendships with other Hobie sailors. Enjoying a fleet picnic, participating in summer evening practice races, attending a points regatta or joining an overnight flotilla puts you with people who share your same fun-loving interests.

Hobie Cat Racing

Hobie Cat regattas take place almost year round all over the continent—weather permitting. Most local fleet events take place on weekends during the summer months. There are usually 4-6 races on a Saturday and 2-3 races on Sunday. Information about each Division's schedule is available in the newsletter and on the HOBIE CLASS website. Hobie Cat racers are welcome to participate in any Hobie event, regardless of whether it's in their home Division or in another area.

Racers are required to be HOBIE CLASS members if they wish to take part in HOBIE CLASS sanctioned points regattas.

Hobie regattas are run on a standard sailing race course and follow ISAF racing rules as published by US Sailing in North America. Individual fleets are permitted to make minor procedural changes by amending the sailing instructions.

The beauty of a Hobie regatta is its one-design nature. All the boats are Hobie Cats. Starts are sequenced according to size of the boat. The race committee makes the decision about the starting order at a regatta, but the following is how it generally goes: The H-20s start first and sail a longer course than the other boats because they go faster. The H-18s would probably start 2nd, followed by the 17s, then the 16s and 14s. Within each class (or size) of boat there can be A, B, or C fleets. These designations refer to the race experience of the skipper. An "A" fleet skipper has the most experience while a "C" fleet skipper is just learning about Hobie racing. Oftentimes "C" fleeters start after the "A" and "B" boats, and sail a shorter course. A racer moves up through the fleets by improving during a regatta season. The Division leadership looks at all the race results at the end of the year and promotes the top sailors. Once you get to "A" fleet, you are considered to be skilled enough to compete at the regional, continental and global level.

Hobie Cat Sailboats

Hobie Cat produces a variety of catamaran (twin hull) boats. Each one was designed to satisfy a specific niche in Hobie racing and pleasure sailing.

The HOBIE CLASS Organization

The Hobie Class Association of North America was established to serve Hobie Cat sailors and racers residing within North America, including Canada, Mexico, Puerto Rico, El Salvador, Guatemala, and the United States. The purpose of the HOBIE CLASS is to establish and promote the highest standard of Hobie Cat sailing/racing in its geographic boundaries in collaboration with the National and International sailing authorities.

HOBIE CLASS's purpose is to

- Give support and encouragement to Hobie Cat sailors, racers, boat/equipment dealers and the manufacturer;
- Support and maintain the one-design racing characteristics of the Hobie Cat sailboat;
- Promote Hobie Cat sailing/racing activities to HOBIE CLASS members including regatta organization and publicity;
- Uphold the rules governing Hobie Cat racing competitions provided by the International Hobie Class Association and the International Sailing Federation;
- Provide educational opportunities for training and racing skill improvement of HOBIE CLASS members through seminars like the Guest Expert Program; and
- Foster and encourage youth sailing with specialized training and coaching programs.

HOBIE CLASS MEMBERSHIP is open to all persons interested in the sport of Hobie Cat sailing. There are 16 Divisions in distinctive geographic areas across North America. Each Division is composed of several Fleets of sailors within smaller geographic areas. Hobie Cat fleets are not typically associated with yacht clubs. Please refer to the map and fleet listing found in HOBIE CLASS News, visit the website www.hca-na.org or call Hobie Cat at (760) 758-9100 x0 to find a fleet near you. ***Join the fun today!***

HOBIE TOOL The must have tool for screw pin shackles, nuts, drain plugs, and some screws. Opens bottles too.

83101 Each

WIRE CUTTER Do it yourself. Precision designed triangular jaws close and cut. No uneven ends.

83105 Each

SWAGE-IT TOOL Make your own wires for those special gadgets you like. Swaging pressure is applied with a box or socket wrench. For 1/16", 3/32", and 1/8" wire sleeves.

83106 Each

HOG RING PLIERS Cinch rings, hog rings, upholsterers clamp. They are all the same and these are the pliers to crimp them with. Sailors mostly use them on shockcord.

83104 Each

STAINLESS STEEL POCKET KNIVES From Telo. Made entirely of top quality stainless steel. Fine quality knives with dura-edged blades. Each has a marlin spike for loosening knots.

STANDARD Marlin spike and single blade. 3.5 oz.

1550 Standard

DELUXE Marlin spike, knife blade, shackle tool, and screwdriver. 4.0 oz.

1551 Deluxe

YACHTSMAN Marlin spike, blade, shackle tool. 2.0 oz.

1555 Yachtsman

GERBER NEEDLENOSE MULTI-PLIER® Since 1939 Gerber has produced high quality innovative products for the outdoors. Features included in this model are; needle nose pliers, wire cutter, crimper, standard/ metric scale, lanyard ring, cross head screwdriver, bottle/can opener, serrated sheeps foot blade, large, medium, and small flathead screwdrivers, file, drop point blade, and it adapts to the Gerber Tool Kit! This Multi-Plier® comes with the S.A.F.T. PLUS™ System where each component opens independently of all others, locks tightly against a positive stop roll bar and stays tight until you unlock it. Stainless steel construction with a limited lifetime warranty!

83102 GERBER TOOL

SAILORS' ALL PURPOSE TOOL Handles screws, bolts, and shackles. Wide blade fits up into Hobie Cat's lower rudder castings for adjusting cam spring tension. Narrow blade fits the rudder stop screw and its built in hook is designed specifically to return locked "down" rudder cams to the "up" position with the twist of the wrist.

83103 Each

EASY RIG Great little temporary handle for halyards, outhauls, downhauls and trampoline tightening. Lay the line in the slot and pull. The line seats in the easy rig handle and provides a handle for tensioning the system. Also available in aluminum from Clamcleat as "Tug Cleat"

2065 Up to 3/16" line

2069 1/4" to 1/2"

2070 Tug Cleat 1/8"-1/4"

STICKERS

DECALS Hobie "Flying H"

36601000 Sticker Black 6" wide x 2.5"

36601011 Sticker White 6" wide x 2.5"

13001001 Sticker Black 12 5/8" wide x 5 1/2"

DECALS Hobie "Script"

12451050 Sticker Black 24" wide x 6.3"

12451051 Sticker White 24" wide x 6.3"

DECAL "Hobie Diamond w/Flying H" Used on '98 and newer hull graphics (36" wide x 7" Tall).

12451031 Turquoise "Hobie" / Silver Background

DAGGERBOARD AND RUDDER REPAIR COMPOUND

At last, a hard flexible two part compound for repairing major damage to daggerboards and rudders. It's an acrylic material with a 5 minute pot life. Workable with file and/or sandpaper in 30 minutes, full hardness in about 24 hours. It flexes instead of slipping off. Has been used to fill up to 5/8" of missing daggerboard or rudder tip. One package fills about 5" x 3/8".

1695 Kit

TWO PART EPOXY PUTTY Simple to use putty-like repair epoxy for cats and all boats. Quick and easy, it works fast to patch up small dings and scratches. Just mix, let dry, sand lightly and you are ready to go.

82300001 1 Pound

GEL COAT REPAIR PUTTY Use to fill nicks, dings, and scratches. It is the best way to smooth the hull. Blends in perfectly. Will not sag. Must be mixed with catalyst to harden. 1.25 oz. Order catalyst separately.

8006610 White

MAGICA RUST REMOVER Easily clean rust stains from fiberglass, plastic surfaces, metal parts or fabrics. Although metal parts are made from high quality stainless steel, machining tools often leave carbon particles imbedded in the metal surfaces. This material can bleed a rust stain onto other surfaces. Magica simply dissolves the rust away.

1602 MAGICA GEL 1.25 oz. Tube

1603 MAGICA GEL 8 oz. Bottle

GEL COAT REPAIR KIT Permanently repairs nicks, gouges and scratches in fiberglass hulls and decks. Blends hundreds of color combinations and cures glass-hard in one hour. Special release paper and no-run polyester gel make a slick, no-sand finish quick and easy. Kit contains colors, polyester gel paste, hardener, release paper, mixing sticks, blending chart and instructions.

1601 Kit

STARBRITE FIBERGLASS COLOR RESTORER Brings back original color and luster. Removes heavy oxidation, chalking and fading. Protects against future fading. Will not scratch gelcoat. Excellent for all dark colored boats. No hard rubbing is necessary.

1618 16 oz. Bottle

STARBRITE MARINE POLISH During the many months of storage, wind can force dirt into the microscopic pores of your hull and leave the surfaces dull and gritty. To prevent this, an application of Starbrite Marine Polish will seal the hull of your boat and insure a bright and shiny surface when spring comes around. Weather resistant protective coating will keep your hull dirt and stain free.

1611 16 oz. Bottle

CLEAR SILICONE SEALER

Make sure your hulls are watertight! Clear Silicone seals leaks around all thru-hull fittings such as gudgeons, drain plug housings, tangs, and pylons. Use when re-riveting mast, boom, and crossbar fittings.

376 1.5 oz. Tube

SILICONE SPRAY

Dry silicone spray for sail luffs, cleats and bearings

5106 Silicone 3.5oz

AQUASEAL UV TECH SURFACE PROTECTANT

Cleans and protects your boat and sailing gear from sun damage. Simply spray on and spread with a cloth to bring back that shine or to keep everything looking like new. Use on your fiberglass hulls, vinyl trampoline, wet-suit, dry-suit and life vests.

7004 8 oz.

AQUASEAL MIRAZYME ODOR ELIMINATOR

There's nothing quite like the odor of damp sailing gear left in your car trunk for a couple of days. With one application eliminate those odors from booties, wet-suits, dry-suits and the rest of your gear. A 100% biodegradable product made from a blend of 10 highly specialized, light activated microbial elements. Works by penetrating into pores of fabric, rubber and even hard surfaces to eliminate odor naturally.

7003 8oz.

SEA SPRAY TRAMP CLEANER We've formulated our own trampoline cleaner. It comes in a pump spray bottle so you can apply a light spray to the trampoline, brush and rinse off. It removes dirt, stains, and mildew. Cleans new trampolines and restores old ones.

1619 Tramp Cleaner

FSR Fiberglass Stain Remover, is a unique stain absorbing gel. Ideal for removing oil, rust, exhaust, waterline, and transom stains yet it can also be used anywhere else fiberglass stains may crop up - shower stalls, furniture, etc. Removes road soil. Non-abrasive. Requires no sanding or compounding. Simply apply with a brush, sponge, or cloth, wait a few minutes, then wipe off.

HOBIE CAT WARRANTY

HOBIE PARTS WARRANTY Hobie Cat warrants all Hobie Cat manufactured parts and accessories against failure due to materials or workmanship defects for a period of one year.

OTHER WARRANTY Any accessories and other merchandise sold by Hobie Cat not mentioned in the paragraph above are not warranted by Hobie Cat. Said accessories and other merchandise may be covered by the manufacturer's warranty, a copy of which can be furnished by Hobie Cat upon written request.

HOBIE CAT'S OBLIGATION Hobie Cat at its option will repair or replace without charge any part or accessory which is found to be defective under the terms and within the period of this Warranty. Buyer must return the accessory with a sales slip as proof of purchase date.

BUYER'S OBLIGATION Promptly, upon discovery of a suspected defect, buyer, at its expense, must return the equipment to the Hobie Cat dealer for inspection. Warranty is void if equipment is operated after a suspected defect is, or should have been discovered.

WHO IS ENTITLED TO WARRANTY Only the original Buyer of the equipment and accessories from Hobie Cat is entitled to warranty. Warranty may not be transferred.

NO WARRANTY OF USED EQUIPMENT Used equipment is sold AS IS; Hobie Cat makes NO WARRANTY concerning its merchantability, condition, durability, age or model year, or fitness for any purpose whatsoever.

MUTUAL AGREEMENTS It is agreed that this warranty sets forth Buyer's exclusive right and remedy against Hobie Cat with respect to the equipment and accessories. It is in lieu of all other express warranties and all implied warranties, including implied warranties of merchantability and fitness. Hobie Cat assumes no other like or unlike liability for loss of cargo, use, profit or consequential damages of any kind in connection with the sale, alteration, use, repair or replacement of equipment or any part thereof.
